**"Time and frequency"**  
**Minsk, Belarus. October 29-30, 2015**

**1. Current COOMET "Time and frequency" projects**

The current status of COOMET topics was reviewed.

Resolutions:

- Confirm the decision of the 9th Committee 1.11 on the advisability of excluding topics that have lost relevance (in terms of the Earth's rotation parameters, primary frequency reference standards and comparing national time scales), starting in 2015.

**2. 398/RU/07 Comparisons of the National Standards of Time and Frequency with RF scale UTC(SU)**

Resolutions:

- Build of the protocol for exchange of information.  
- To consider it appropriate to publish the results of comparisons of national standards in the journal "Measuring Technique".

**3. 605/RU/13 Comparison of time scales of NTP-servers via INTERNET** The Chairperson of TC 1.11 presented the results of the comparison of countries participating in the pilot project.

Resolutions:

- Include VMT / FTMC as part of the participants in topic 605 / RU / 13.  
- Include the laboratories of Belarus and Kazakhstan in the composition of the participants as they become available.

**4. Formation and examination of CMC**

A poor state of CMC examinations over the past period was noted.

Resolutions:

- BelGIM - open a new topic for the examination of CMC.

**5. Organizational questions**

Resolutions:

- To include Gerlikh Andrey Ivanovich (Republic of Moldova, National Institute of Metrology) into the composition of COOMET Technical Committee 1.11.  
- Representatives of Azerbaijan and Uzbekistan - identify the members of the TC.

**6. Next meeting**

Resolutions:

- The 11th meeting in 2016 is scheduled to be held in Turkey on an agreed date.  
- Notification of members of the TC about the dates and venue of the meeting should be carried out no later than 3 months.  
- To study the issue of training new members of COOMET TC.
