

**Theme: Fundamentals of Metrology and Quality (MnQ)**

**Dates: April 25-29, 2015**

**Venue:** Korea Research Institute of Standards and Science (KRISS), Daejeon, Korea

**Organized by:** Global Metrology Academy (GMA), KRISS

**Overview**

**(GMA-GT-2016-02-MnQ)**

The Global Metrology Academy of KRISS offers group courses to meet the needs of metrology HRD of the customers both at home and from abroad who are responsible for metrology and related functions of the quality infrastructure of the nation. Different from other courses which were dealing with technical subjects of metrology, the course [GMA-GT-2016-02-MnQ] intends to address the core fundamentals of metrology and quality which are of significance to the **quality managers and/or directors of national metrology institutes**. The main purpose of the course is to share with the participants the experience that Korea and KRISS have obtained over the past decades in science, technology, innovation and in metrology. At this context, it is strongly recommended that **high-level officials in charge of making policies on the national quality infrastructure** also come and join in the course. It will enable them to get clear perspectives on what and how to do for establishing and refining their national standards system in the future.

The course programs consist of five (5) modules, presenting STI (S&T Innovation) and NSS of Korea, QMS and the CIPM MRA, Impact and Evolving Needs of Metrology. Participants will also be given understanding of KC-CMC-Traceability-Uncertainty in measurement. The course program will also address the impact and evolving needs of metrology. Speakers are invited both from within KRISS laboratories, metrology community of Korea, and from global metrology community as well.

Participants will be given a chance of visiting the laboratories of KRISS engaged in wide range of R&D on measurement standards and the cutting-edge applied measurement technologies. In addition, the GMA is organizing technical visit programs covering the selected calibration laboratory and industry of Korea scheduled at the later part of the course.

**Outline of Course program [*Subject to Modification!*]**

Modules	Subjects	Remarks

MiG-2 (Day 2)	<b>QMS and CIPM MRA</b>	THREE (3) lectures presenting QMS requirements, QMS in practice at KRISS, and KC-CMC-Traceability in measurement
MiG-3 (Day 3)	<b>QMS and CIPM MRA (and Special Lectures)</b>	Two (2) speakers presenting new SI and SRD activities, ONE(1) on uncertainty in measurement,
MiG-4 (Day 4)	<b>Impact and Evolving Needs of Metrology</b>	Three (3) invited lectures (* Afternoon: KRISS Lab tour )
MiG-5 (Day 5)	<b>Evaluation and Closing</b>	Afternoon: Technical visit to industry
TCV-1 (Day 6-7)	<b>Cultural experience of Korea (and departure)</b>	Seoul

Official language of the course: English  
(interpretation service is not available.)

**Knowledge and skills to be obtained**

At the end of the course, participants will become familiar with what Korea and KRISS have achieved over the past decades in the fields of science, technology, innovation and national quality infrastructure. It is envisaged that the course will offer participants broad perspectives and deep insights that will help them more effectively manage and operate their national metrology institutes and make national policy and strategy required for further improving the national competitiveness based on the strong quality infrastructure where metrology plays the key role.

**Who should attend!**

- **Quality managers and/or Directors of national metrology institutes**
- **High-level officials in charge of making policies on quality infrastructure: metrology, standardization, and conformity assessment**

**Applications**

**Applications to be Accepted by February 29, 2015**

**Welcome to be Partners of Global Metrology Academy!**
